

Bonnie Albrecht has worked for Jefferson County Public Health (JCPH) for ten years as an environmental health specialist. Her experience includes conducting routine regulatory inspections and complaint investigations of food service establishments, child care centers, swimming pools, body art studios and mobile home parks. She also coordinated and teaches classes for the JCPH Excellence in Food Safety education program for food handlers. Bonnie has substantial experience conducting investigations of foodborne illness outbreaks. She has also done extensive work coordinating and conducting surveillance and investigation of a variety of animal-related diseases including West Nile Virus, rabies, plague, and tularemia. She also has extensive training in public health emergency preparedness as a member of the JCPH Public Health Incident Response Team.

As a resident of Gilpin County, Bonnie shares the desires of her neighbors for having the best possible public health services in her community. She has been inspecting retail food facilities, pools and child care centers in Gilpin County for 5 years and will continue to do so as part of her new role. Additionally, she has reestablishing the well water testing program and with the support of JCPH and many other community partners, will coordinate many public health programs, projects and other public health-related activities for the citizens of Gilpin County.
